- User Research
- Roadmap Planning
- Stakeholder Mgmt
- Agile / Scrum
- AI / LLM Integration

TECH STACK

React · Next.js · TypeScript

Node.js · Express · REST APIs

PostgreSQL · MongoDB · Redis

AWS S3 · Docker · Vercel · CI/CD

Elasticsearch · WebSockets · JWT

Figma · Wireframing · Prototyping

LANGUAGES

English (Professional)

Hindi (Native)

PROFILE

Product-minded engineer with **2+ years** building user-facing platforms at scale. Experienced translating user pain points into prioritised features, defining success metrics, and shipping end-to-end across cross-functional teams. Full-stack background provides technical credibility for PM decisions. Seeking a **Technical / Associate PM role** where product intuition meets engineering depth.

IMPACT HIGHLIGHTS

40%	35%	60%	2K+
Throughput Boost	API Calls Reduced	Upload Time Cut	Daily Active Users

EXPERIENCE

Software Engineer

Sep 2024 – Present

Infinite Computer Solutions

Noida

UPPCL MDM Analytics Dashboard

- Scoped dashboard for **5,000+** meter records; mapped personas across 4 roles and documented core workflows end-to-end.
- Defined TTFB **<2s** as success metric; prioritised React Query + lazy loading to cut API calls by **35%**.
- Designed multi-role JWT RBAC from stakeholder permission mapping, eliminating unauthorised access incidents.

BEST ICRS – Complaint Portal

- Owned full product lifecycle for civic complaint portal serving **2,000+ DAU** — requirements to production.
- Prioritised AI chatbot to automate **40%** of repetitive queries; shipped i18next multilingual support after identifying drop-off.
- Improved throughput by **40%** via Redis + async queues; reduced release cycles from days to hours with Docker CI/CD.

Infinite Horizon – Employee Portal

- Identified upload latency as top user pain point; led AWS S3 migration cutting upload time by **60%**.
- Shipped Elasticsearch search microservice (autocomplete + filters), reducing response time by **30%**.

Full-Stack Developer Intern

May 2023 – Nov 2023

Hippo Toys

Remote

- Scoped full order lifecycle (checkout → fulfilment → returns); improved onboarding conversion by **20%** via OAuth.
- Built admin analytics tables for **10,000+** records, enabling faster ops and inventory decisions.

PROJECTS

Maple Global School ERP

Freelance – 2024

React · Node.js · MongoDB

- Conducted stakeholder interviews with admin, teachers & parents to define modular ERP covering attendance, transport, and fees.
- Sole owner of product scope, architecture decisions, and phased delivery timeline.

PM TOOLBOX

Feature Prioritization · User Personas · KPI Tracking · A/B Testing · Roadmapping · Stakeholder Mgmt · Agile / Scrum · OKRs · AI Integration · System Design · Figma · Data-Driven Decisions
